MASTER OF ARTS IN **BIBLICAL STUDIES**

The Master of Arts in Biblical Studies provides a strong academic foundation to help Christians live out their faith in any setting. Rigorous study of the Bible develops and strengthens an active knowledge of God and His Word — which, in turn, equips the student to think biblically about a wide variety of real-world topics.

This program provides academic training and practical leadership skills for those who have diverse callings and are interested in an integrative biblical studies education grounded in the truth of Scripture.

This program is designed primarily for leaders who desire training to better serve within their church, parachurch organization, or other ministry setting. This program will provide you with the knowledge and skills necessary to systematize and apply biblical truth to the intellectual issues confronting the church and the surrounding culture.

Students in the Biblical Studies graduate program enjoy small classes with other working adults who bring the richness of diverse backgrounds to online discussions, adding dimension to the program. Students are also mentored by qualified professors with strong academic credentials and significant experience in their respective fields. This program is accredited by the Higher Learning Commission.
