## MASTER OF SCIENCE IN **CYBER SECURITY**

A degree in cyber security will equip you with the required technical skills and business knowledge to protect yourself, your business, and your organization's key assets online. CCU's Master of Science in Cyber Security degree program will teach you cyber skills that are relevant in today's interconnected world. These cyber security courses focus on helping you learn the skills employers are looking for to help keep their organizations secure.

In addition to gaining foundational knowledge in the key areas of the field, the cyber security master's degree program will also show the relationship between cyber security and Christianity — especially as it relates to cyber warfare and cyber crime. This perspective enables you to demonstrate excellence both in your workplace and in life.

With these skills, you will be prepared for careers in areas such as digital forensics; cyber criminology; security policy; cyber entrepreneurship or leadership; and cyber defense or offense.

## PREREQUISITES

All applicants to the M.S. in Cyber Security program must have completed introductory-level courses in networking, programming, business, and information security, or they must be able to demonstrate equivalent experience in each of these areas. These prerequisites must be completed before enrolling in CCU's M.S. in Cyber Security program.

### Master of Science in Cyber Security Program Features

- The online format enables students to earn their Master of Science in Cyber Security online, right in their home community, while collaborating with other students throughout the country.
- The program is designed to accommodate part-time students, as well as full-time students.
- M.S. in Cyber Security students enjoy small classes with other working adults who bring the richness of diverse backgrounds to online discussions, adding dimension to the program.
- CCU coursework integrates faith, learning, and living with an emphasis on biblical principles, moral leadership, and advanced cyber security roles.

Interested in a graduate certificate in cyber security? CCU offers certificates in Cyber Criminology, Cyber Defense, Cyber Offense, and Cyber Policy. Learn more at [ccu.edu/cybersecurity](http://ccu.edu/cybersecurity).
