SAVE TIME AND MONEY BY TRANSFERRING CREDITS.

PRIOR LEARNING CREDIT

Save time and money by earning college credit for your life experience. There are two ways of doing so: credit by portfolio and credit by exam. Build a portfolio of your post-high school personal and professional learning experiences. Or take advantage of low-cost CLEP, DSST, and UExcel testing options to test out of electives and many general education requirements.

- Associate Degree: up to 45 credits
- Bachelor’s Degree: up to 75 credits

TRANSFER CREDIT FROM ANOTHER COLLEGE

If you started a degree at another regionally or nationally accredited college or university, you may be able to transfer credits toward your CCU degree. You can also earn credit through CCU’s partnership with Straighterline.

- Associate Degree: up to 45 credits
- Bachelor’s Degree: up to 90 credits

Accepted transfer credits vary by degree program. Check with your CCU enrollment counselor about transfer credit options for master’s degree programs.

CLASSES START EVERY 5 WEEKS
ASSOCIATE OF SCIENCE IN HEALTHCARE ADMINISTRATION

The Associate of Science in Healthcare Administration program will provide you with a solid introduction toward becoming a frontline leader in healthcare. All Healthcare Administration courses are taught with a Christian worldview, so you’ll gain unique underpinnings in this degree by grasping the importance of ethical considerations while understanding crucial aspects of leading others as a servant leader.

In this program, you will be introduced to healthcare terminology, delivery systems, and informatics, which will enable you to make the best possible decisions regarding patient outcomes. Additionally, the program will provide a background in human resources because healthcare, at its core, is about working with people. You will combine this coursework with an examination of spirituality and ethics in healthcare and understand that work in healthcare is, indeed, a sacred calling.

BACHELOR OF SCIENCE IN HEALTHCARE ADMINISTRATION

The Bachelor of Science in Healthcare Administration program will teach you the leadership skills and healthcare knowledge you need to excel in this highly competitive field. All courses are taught from a Christian worldview, giving you the opportunity to discuss and grapple with pressing issues, including ethical considerations, quality of life issues, and personal interactions.

In this program, you will be trained in a wide array of healthcare topics while learning from industry-experienced instructors. Courses will cover statistics and informatics, regulations affecting healthcare, fiscal concerns affecting efficient delivery of healthcare, and more. You will also become adept at leading and managing others because healthcare is, at its core, about people.

MASTER OF BUSINESS ADMINISTRATION – HEALTHCARE ADMINISTRATION EMphasis

The Master of Business Administration programs at CCU focus on management and leadership. You will develop critical thinking, decision-making, and people management skills. You’ll explore the concept of “servant leadership” and consider how to incorporate the eternal wisdom and love of Jesus Christ in the way you lead and manage others in the business environment.

Our MBA programs are ideal for adults who aspire toward senior management positions, such as CEO or COO, or want to be successful business owners or ministry leaders. The principles and skills you’ll acquire will apply to both for-profit and nonprofit fields, as well as the military and law enforcement — virtually any organizational setting.

The MBA with an emphasis in Healthcare Administration focuses on practical application and unique requirements of the healthcare field, preparing leaders to be effective across multiple industry responsibility areas.

CERTIFICATE IN HEALTHCARE ADMINISTRATION

The Certificate in Healthcare Administration program is designed to provide you with competence in a rapidly growing job sector. You will comprehend the fundamental aspects of healthcare delivery, including a grasp of the latest changes in policies and regulations, and gain a strong understanding of the financial and ethical considerations in healthcare.

Additionally, you will be introduced to a wide array of medical terminologies as you understand the basics of managing a medical staff, appraising patient outcomes, and directing organizational change. You will also become familiar with informatics in healthcare as you understand how to interpret and manage information to improve patient outcomes.

This certificate is available as a stand-alone program, or you can transfer 12 credits from the certificate to a CCU associate degree in Healthcare Administration or a bachelor’s degree in Healthcare Administration. The Certificate in Healthcare Administration can also be used to supplement a bachelor’s degree in Nursing, Business Administration, Information Systems Management, Organizational Management in Christian Leadership, Human Resources Management, or Project Management.
